1 Definitions

Downloading is the method in which RBdigital offers eMagazines on mobile devices and eAudiobooks on mobile devices and computers. Files are temporarily downloaded onto the device and are available to use when disconnected from the internet.

eAudiobooks are the digital format of a recording of a book.

eMagazines are the digital format of traditionally paper magazines.

Issues are what publications release in a set frequency. Some publications will release issues every week while others will release every month or twice a year. These issues are what patrons will borrow through RBdigital.

Publications are the individual companies and institutions releasing issues such as Newsweek or Cosmopolitan.

RBdigital App is a free mobile app downloaded onto a smartphone or tablet that will allow you to download and read eMagazine issues and listen to eAudiobooks.

RBdigital Desktop App is a free computer software that will allow you to download and listen to eAudiobooks on a laptop and desktop computer.

Simultaneous Use means patrons are not restricted by the number of copies available and can immediately access the desired eAudiobook and eMagazine issue.

Streaming is the method in which RBdigital offers eMagazines on computers. Files are not downloaded onto your computer but require continuous internet connection.

2 About RBdigital

RBdigital, formerly known as Zinio, offers simultaneous access to over 100 eMagazine publications and over 250 eAudiobooks. eMagazine issues are available without a return date while eAudiobooks are available for 3 week borrows. eMagazines can be streamed on a computer or downloaded on a mobile device. eAudiobooks can be downloaded on a computer and mobile device. eMagazines offer access to current and back issues going as far back as the beginning of our subscription. For example, US Weekly has back issues dating as far back as November 2013 which is when our subscription began.
